Good afternoon Brad,

To follow-up on our conversation from this afternoon, at our last CPRC meeting there was a request from the Commission to continue to meet in-person instead of virtual meetings. The main reason for this is for the Commission to have open dialog in a secure manner during closed session, and to be able to cover cases that have been reviewed. There are times when the Commission needs to view video, audio, photos, and documents that are in the case files, and are unable to do so in the online meeting format.

Please feel free to give me a call if you would like to discuss further.

Thank you in advance.

Respectfully,

Mike Lesley, Chairman, CPRC

To our Mayor and Council - City of National City

Dear Mayor and Council,

I come to you as your ChairPerson of your Planning Commission to plead for your reconsideration to allow the planning commission to meet in-person.

You have appointed us to consider land use planning matters. We render determinations and make recommendations to the City Council on a variety of land use matters, including changes to the City's General Plan, Specific Plans and Land Use Code. Furthermore, we provide discretionary review for land use matters such as Conditional Use Permits, Variances, and Subdivisions.

With all these, Mayor and Council, it would warrant for our full focus and attention on applications presented before us to discuss and deliberate as a commission and get the full picture and understanding from the applicant to provide to you Mayor and Council the best recommendations based on our review and determination.

I believe that our Vice Mayor Marcus Bush would be able to relate as he sat as Chair of this commission and has an understanding of how these applications are determined for recommendation.

Thank you for your consideration.

Respectfully,

Ditas Yamane
Chairperson - Planning Commission
City of National City
