Participation is open to federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Bulk Solid Waste and Recycling Equipment from which Vendor was awarded a contract.

Vendor desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

- A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below.
- B. **EXPIRATION DATE AND EXTENSION.** This Contract expires June 2, 2025, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended up to one additional one-year period upon request of Sourcewell and with written agreement by Vendor.

Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. **WARRANTY.** Vendor warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Vendor warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Vendor's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that is effective past the expiration of the Vendor's warranty will be passed on to the Participating Entity.

C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution, Vendor will make available to Sourcewell a means to validate or authenticate Vendor's authorized dealers, distributors, and/or resellers relative to the Equipment, Products, and Services related to this Contract. This list may be updated from time-to-time and is incorporated into this Contract by reference. It is the Vendor's responsibility to ensure Sourcewell receives the most current version of this list.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced as stated in Vendor's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Vendor must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable

time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery.

Vendor must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcwell may declare the Vendor in breach of this Contract if the Vendor intentionally delivers substandard or inferior Equipment or Products. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Vendor as soon as possible and the Vendor will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

B. SALES TAX. Each Participating Entity is responsible for supplying the Vendor with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Vendor may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Vendor determines it will offer Hot List Pricing, it must be submitted electronically to Sourcwell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcwell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Vendor may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcwell Price and Product Change Request Form to the assigned Sourcwell Contract Administrator. This form is available from the assigned Sourcwell Contract Administrator. At a minimum, the request must:

- Identify the applicable Sourcwell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing

restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Request Form will become an amendment to this Contract and be incorporated by reference.

A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Vendor understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Vendor that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Vendor. Typically, a Participating Entity will issue an order directly to Vendor. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration of this Contract; however, Vendor performance, Participating Entity payment, and any applicable warranty periods or other Vendor or Participating Entity obligations may extend beyond the term of this Contract.

Vendor's acceptable forms of payment are included in Attachment A. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Vendor, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be worked out directly between the Participating Entity and the Vendor. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements) not addressed in this Contract, the Participating Entity and the Vendor may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. **TERMINATION OF ORDERS.** Participating Entities may terminate an order, in whole or in part, immediately upon notice to Vendor in the event of any of the following events:

The Vendor will submit payment to Sourcwell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Vendor's name and Sourcwell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcwell's banking institution per Sourcwell's Finance department instructions. Table 2: Company Information and Financial Strength

Line Item	Question	Response *
7	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	<p>Petersen Industries began over 60 years ago by producing a knuckle boom loader used in the harvest of Florida citrus. A local municipality reached out and asked if we could mount one on a truck chassis so they could use it to collect bulky items. That was the first ever grapple truck purpose built for bulky municipal solid waste. Ever since then our model "Lightning Loader" has been synonymous with grapple trucks throughout the entire United States.</p> <p>Our mission at Petersen Industries is to help cities and counties stay clean and hazard free by providing the best possible equipment to safely and efficiently collect and dispose of discarded bulky items. We define bulky waste to mean anything that does not fit in your rollout container.</p> <p>What makes Petersen Industries uniquely qualified to do this is our laser focus on our products' intended use. Other than just a few purchased components, over 90% of our products are designed, machined and manufactured in-house. This includes most hydraulic cylinders, pins, bushings, and everything in between. This gives us control over both quality and delivery. We aren't reliant on other manufacturers, sometimes overseas, to provide us with components for our customers. We not only have parts for our new products, but know we also have the right part on the shelf for customers in the field. Our ability to continually service our equipment after the sale is the most common reason our customers say they only buy Petersen Lightning Loaders!</p>

8	What are your company's expectations in the event of an award?	Petersen Industries has held a contract with Sourcwell for over 10 years. It has become our go-to strategy for selling our equipment with every new and existing customer or prospect we meet. The simplicity of using the contract, along with the ever-growing acceptance of it, make it our first choice for doing business every time. Our expectations are to continue to promote the contract first as our preferred method to provide our products to our customers.	*
9	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	Petersen Industries has enjoyed continued successful growth over the past 10 years. We have grown on average over 20% year over year. That has also been profitable growth with EBITDA in the 16-22% range each year. We have been able to add plant and equipment of more than \$5 million in the past several years to meet our ever-growing demand. We have been able to do so without incurring any debt. We make all of our capital expenditures with cash on hand. Financial reports and a note from our CPA will be provided as an attachment.	*
10	What is your US market share for the solutions that you are proposing?	Although there is no independent reporting agency that collects market share data for grapple trucks, it is our belief the Petersen Industries holds more than 50% of the municipal bulk waste grapple market in the United States.	*
11	What is your Canadian market share for the solutions that you are proposing?	Our market share is slightly less in Canada, as is the demand for our product also.	*
12	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	No	*
13	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	Manufacturer In certain states we sell our product directly to municipal/governmental agencies with our own employed sales force. We also have 26 contractual distributors in certain states around the country. Their sales force is not employed directly by Petersen Industries. Petersen Industries, being the OEM, completely up fit the chassis with our equipment and deliver it to our dealers "ready to use". Our dealers have been trained how to use the contract as our agent. Petersen Industries always has, and will remain, as the single point of responsibility for any item sold through the contract.	*
14	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	We are required to and hold a Florida business license, Polk County Occupation License, and a Florida Motor Vehicle Dealer License.	*
15	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	None	*

Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *
-----------	----------	------------

23	Sales force.	Petersen Industries, Inc. employs 1 Sales Director, 4 direct full time Regional Sales Managers (RSM), 4 Inside Sales Managers and one one Inside Sales Coordinator. Each Outside RSM is responsible for a portion of direct sales to municipal entities, as well as, managing the sales efforts of a select group of independently owned, contractual dealers and their sales teams at each.	*
24	Dealer network or other distribution methods.	Our dealer network consists of 28 independently owned distributor dealers that each have at a minimum one physical location within their assigned Area of Primary Sales Responsibility (APSR), as well as, multiple outside sales professionals and inside sales support staff. Our dealers have a minimum of one location in the following states: Massachusetts, New Hampshire, New York, Pennsylvania, Virginia, North Carolina, South Carolina, Georgia, Florida, Tennessee, Kentucky, Ohio, Indiana, Michigan, Illinois, Iowa, Missouri, Arkansas, Louisiana, Texas, Oklahoma, Nebraska, Montana, Colorado, Arizona, Nevada, Idaho, Washington, and California	*
25	Service force.	Petersen Industries has one mobile service truck that can be deployed within 24 hours anywhere within the state of Florida. In addition to that, we have a full in-house service team that can perform any repair, warranty or otherwise, utilizing our \$3+ million dollar parts inventory we keep on hand exclusively for replacement parts. In addition to our capabilities, each of our dealers also employ the use of mobile service technicians, in-house service technicians, and a minimum stocking level of Petersen parts. If they do not have a part in stock most parts can be shipped out within 24 hours of any request. Exceptional service after the sale is the primary reason we are told customer continue to buy Petersen only for their grapple truck needs.	*
26	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	Our service procedure starts with directing all service related inquiries, whether initiated by phone or our online chat, to our customer service department where a team of 4 specialists, with a combined 120 years of Petersen experience, are able to fully diagnose the problem remotely, determine what parts are needed and decide the best course of action to getting the customer back up and running. Whether that is to ship out parts with installation instructions directly to customers with their own service capabilities, coordinate with one of our dealer distributors to have the work performed by one of their technicians, or handling the service portion ourselves, either in-house or with our mobile response unit. Most items are diagnosed and have parts shipped out within 24 hours. for service related requests, response is usually within 48-72 hours of initial contact. All of our dealer distributors participate in the profit of parts sales within their APSR, thereby ensuring the necessary commitment to have our customers taken care of in a timely fashion.	*
27	Describe your ability and willingness to provide your products and services to Sourcwell participating entities in the United States.	Sourcewell has been, and will remain, a large part of our business with municipal and governmental entities. Our dealers all appreciate, and are well versed in, our contract, its nuances, and how to get the customer what they need as easily and painlessly as possible. We include Sourcewell in every conversation we have with potential buyers, letting them know they have an easy alternative to the bid process. The largest advantage is that it will be more competitive than any price they can receive by going out to bid on their own. The work has largely been done for them and so the discounts are deeper than any other bid price we give out.	*
28	Describe your ability and willingness to provide your products and services to Sourcwell participating entities in Canada.	Although we currently have no location of our own in Canada, we have relationships with entities that are willing and able to sell and service our products. We have relationships with entities in Montreal, Ontario, and Kelowna that are familiar with our products, their capabilities and the repair and maintenance.	*
29	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	We have customers in all 50 states and every province in Canada. We are willing and able to assist any and all governmental entities within these two countries.	*
30	Identify any Sourcwell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	We will not be excluding ANY entity sectors.	*
31	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	No restrictions.	*

Table 7: Marketing Plan

Line Item	Question	Response *
32	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	The primary marketing strategy starts with making existing customers and potential prospects aware of the opportunity to purchase through the Sourcewell contract. We have now held a contract long enough that our sales team and dealers' sales teams prefer to lead with this contract rather than use it as an option of last resort. We include the Sourcewell logo on our website for familiarity. We also put magnetic Sourcewell decals on all of our demonstrator vehicles while out demo'ing our products. We are starting to resume attendance at trade shows where we display the Sourcewell flag and magnet at our display booths. Lastly, we developed, in conjunction with our Sourcewell rep, Nick Trout, our Most Valuable Partner (MVP) Program for the dealer that records the largest number of sales through the Sourcewell contract for 2021. The winner will be announced and recognized at the Waste Expo in 2022. This will help promote healthy competition and awareness throughout our dealer network.
33	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Our most obvious use of digital data starts with our website where we receive thousands of hits monthly. We display the Sourcewell logo and link at the bottom of the home landing page so everyone knows right up front that Sourcewell is a buying option for them. We are also actively pursuing a social media strategy where we will be distributing a steady stream of product specific content. We intend to connect it to Sourcewell and promote the existence of our new Sourcewell contract on these platforms. This will enable us to quickly disseminate to our followers the ability to procure Petersen products via Sourcewell.
34	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	We don't rely on Sourcewell to do our marketing. Sourcewell, being a governmental entity, is responsible for developing, issuing, analyzing and awarding contracts. Although we appreciate any promotion or awareness campaign Sourcewell chooses to undertake, it is our responsibility to let our customers and prospects know about their ability to use our contract with Sourcewell to their betterment. AS stated previously, when we get to the point in any negotiation about how to procure our equipment, we lead with our Sourcewell contract as our preferred method. Every governmental customer of ours knows that is an option. It is by their choice if they choose to purchase by some other means.
35	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Because each customer of ours is unique, we prefer to help build specifications though direct interaction rather than making someone attempt to spec out their own equipment on their own. We do not offer any e-procurement at this time and do not intend to in the near future.

Table 8: Value-Added Attributes

Line Item	Question	Response *
36	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Every Sourcewell customer can receive free onsite operator and maintenance training upon delivery of any unit purchased through the Sourcewell contract. We normally charge \$1500 for this expense since it involves travel anywhere in the U.S. and Canada. This training is done by a Petersen Industries employee that is a "trained trainer".
37	Describe any technological advances that your proposed products or services offer.	The beauty of the Petersen Lightning Loader products is their simplicity to use and maintain. We have intentionally avoided overcomplicating the equipment with computers, chips, and electronics that are hard to diagnose. We make sure that all new innovations to parts and products are backwards compatible so our existing customers can benefit from new innovations as well as new customers. The simplicity of our unit allows us to easily troubleshoot and diagnose problems remotely so we can quickly get out the parts and corrective action needed to get the truck back on route. That is what our customers tell us they appreciate the most. Where we are using technology is with our service and warranty department. By using live video chats, they can see first hand what is going on with the equipment and can diagnose remotely along with the customer's technician providing free, step-by-step instruction.
38	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	Although we are not pursuing any green initiatives that require an agency oversight, we are exploring options such as environmentally friendly hydraulic oil, better capture of solvent and paint emissions from our painting process, and even compatibility of our products with electric vehicles. We see electric power as a large part of the future and are exploring ideas to make our products run on battery power on electric or non-electric vehicles. This project is in its early stages and will take some time to see results.
39	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	N/A
40	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	N/A
41	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	We offer the widest variety of bulk waste solutions in the solid waste industry. When we pair that with our experience with the Sourcewell contract we become the most dynamic solution for all municipal and governmental entities to get exactly what they want to best suit their needs. Unlike other cooperative contracts in the U.S. that either separate the equipment from the chassis or only let the chassis dealers hold contracts, the Sourcewell contract allows us to establish the right chassis specifications to best fit our equipment. We are then able to offer the most complete package with the easiest path to acquisition.

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
42	Do your warranties cover all products, parts, and labor?	yes absolutely!	*
43	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	We only ask that it is a warrantable failure. Very seldom do we have a customer try to claim warranty on something they accidentally damaged, but it does happen. We often times will still cover an item that shouldn't be covered if the customer is willing to allow us to come explain what happened and train their operators to prevent it from happening again.	*
44	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Yes in most cases it does. We cover it ourselves in the states we sell direct. We reimburse our dealers who are performing onsite warranties. Most warranty failures are able to be fixed at the customer's location with a service tech and service truck. Our customers really appreciate not having to take it somewhere and leave it for repairs.	*
45	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	No. we can provide service coverage throughout the U.S and Canada.	*
46	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Any item that is supplied with our equipment at time of purchase that was part of the sale (meaning they paid for it in the initial acquisition price) will be covered by our warranty and we will take it up with the supplier, if necessary. Any items added to the vehicle without our knowledge or approval will not be covered.	*
47	What are your proposed exchange and return programs and policies?	For any potential warranty claim, we ask that the customer contact either Petersen directly or their local dealer to start an official warranty claim and receive a tracking number. We then identify the parts needed to perform the repair. We will invoice for the part and freight when we ship it out, but we will include a prepaid return freight authorization to have the failed part returned to us. Once we receive it, inspect it and determine it is a covered failure, we will issue a credit for all parts and freight sent to correct the issue along with an additional credit for any labor incurred.	*
48	Describe any service contract options for the items included in your proposal.	Each of our dealers has the ability to contract with their customer for a service contract for any length or time, if they so choose. We offer a factory service contract to our direct customers that provides for routine inspection and maintenance of the equipment. This can be added at an agreed upon price determined by the amount of responsibility the customer wants to transfer to us.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
49	What are your payment terms (e.g., net 10, net 30)?	We offer net30 day terms to all participating members of Sourcewell.	*
50	Describe any leasing or financing options available for use by educational or governmental entities.	We utilize NCL Government Capital for leasing and financing opportunities with our Sourcewell customers. We were introduced to them through Sourcewell. This is a very seamless transaction for the customer since they are also a Sourcewell contract holder.	*
51	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell participating entities' purchase orders.	Having been a Sourcewell contract holder for many years now, we have streamlined our order entry and reporting process to where it works without much effort. Although our dealers are able to use our Sourcewell contract for their orders, we collect all funds necessary to be distributed back to Sourcewell for the fees. We always ensure the customer has issued the purchase order with the correct contract number and pricing prior to accepting the order. We then require that they sign a purchase agreement contract that spells out that it will be a Sourcewell contract purchase and that fees will be paid by us for their use of the contract. The fees are not reflected in their pricing in any way. It is our expense and part of our initial acquisition cost.	*
52	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	We do accept it for smaller purchases (parts) and there are no additional charges.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcwell Price and Product Change Request Form.

Line Item	Question	Response *
53	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcwell discounted price) on all of the items that you want Sourcwell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Petersen has always worked off of a discounted price from our published list price. The price list uploaded will show the list price and then out to the side will show the percentage discount from that price offered to the Sourcwell member. Because the contract allow for additional discounts beyond what is stated on the price list, very often our customer using the contract will receive significantly more discount than what is shown.
54	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	The published price list and discount uploaded will show a standard 2% off of list. We have issued up to 10% discounts to customers using the contract that are buying multiple units. Because of the volatility in the steel and oil industries in recent years, it is difficult to offer a large discount across the board not knowing what the commodities market will look like at the time of purchase. Either way, our customers will always receive a larger discount on their Sourcwell quoted price than by any other means they attempt to purchase through. This is how we keep our Sourcwell contract primary.
55	Describe any quantity or volume discounts or rebate programs that you offer.	Certain models in our product mix have better economies the larger the quantity being purchased; others do not. We attempt to maximize the discount based on what model and option combination the customer chooses. If we can create efficiencies with multiple units, we will always pass that savings along to the customer by way of additional discount.
56	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	We call these "non-contract items" and usually employ a cost plus model to the item depending on its cost and the amount of additional labor required to facilitate the request. The larger the dollar amount the smaller the additional markup factor. We will calculate our additional labor at our current labor rate of \$120/hr and then discount it according to the level of discount being offered on contract items.
57	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	We will provide a line item on our pricing called Pre-Delivery Inspection. This will be a flat rate of \$1,000 and will be included as a contract item. Not all dealers will participate in the PDI fee as some include it as part of their normal pricing and delivery model. Nothing will be in addition to the quoted price. Our Sourcwell quoted price will be all-inclusive.
58	If freight, delivery, or shipping is an additional cost to the Sourcwell participating entity, describe in detail the complete freight, shipping, and delivery program.	We provide a freight matrix as part of our Sourcwell pricing when we submit our price list. These are guaranteed maximum freight rates and are often less once delivered. Again, this will not be outside of our Sourcwell contract.
59	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	We provide freight to those locations currently through third party shippers that can haul the truck or equipment on a trailer rather than incurring any mileage to the vehicle. Again, our freight matrix will cover these costs.
60	Describe any unique distribution and/or delivery methods or options offered in your proposal.	For most of our deliveries within the continental U.S. the truck will be driven to its final destination. The customer can choose to have the vehicle transported on a trailer so as to not incur the mileage. Although this is more expensive, the optional rates will be included as part of the contract pricing.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	We have been performing this audit for several years now with our contract. We have a sales administrator, Danielle Brown, who is responsible for recording all equipment sales. She ensures that all orders received for Sourcewell contract pricing has all of the proper documentation when accepting the order and that all fees to be paid are properly identified. Sourcewell contract orders are kept in a special file that notifies our Accounts Receivable team when a unit is ready to be invoiced. It is automatically entered into our Sourcewell fees payable account and held until the next payment is due. Our sales administrator personally reviews each Sourcewell payment due and matches it to the equipment sold. Our CFO gets final approval and oversight to ensure nothing was missed during the quarter for which the fee payment is being sent. This gives us 3 separate layers of verification to be certain all necessary fees are paid on time and in full.
63	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	We will pay one full percent of the contract purchase price for all equipment and related components due on the invoice. Most of our unit sales are in the 6 figure range. The average fee paid to Sourcewell per transaction for our products is \$1500 per. It can be lower at times, but it can also be as much as \$3,000 per unit. By making it a flat percentage of everything sold, it is easier to track and calculate than any other method we have explored.

Line Item	Question	Response *
64	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	Our company is laser-focused on bulk waste collection solutions. We do not manufacture or sell any other waste related products. That being said, we have 13 different loader models and over 40 different standard bodies and 6 models of trailers to serve in conjunction with the loaders we manufacture. We offer the largest lineup and broadest variety of bulk waste collection solutions in the entire waste collection industry. You will be able to see this with the brochures in the download section.
65	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	on Page 3 Section II B. 1. b. Knuckleboom and grapple loaders, hook and hoist dumpster loaders, roll-off trucks, and container handlers The above best describes the equipment we will be bidding for this contract. We will not be submitting proposals for a. or c. containers, balers, or compactors.

Table 15: Industry Specific Questions

Line Item	Question	Response *	
71	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Since we have had a contract for several years we already track metrics. It is our goal to have our sales % sold through Sourcwell to outpace our overall growth by at least 5%. so far we have been able to accomplish that goal and plan to see the trend continue	*
72	Describe the serviceability of the products included in your proposal (parts availability, warranty and technical support, etc.).	95% of the finished products we produce are machined and manufactured in-house. Because of this, we very seldom have supply chain issues. Here in the days of COVID delays, that has become a very significant advantage! not only are we able to meet our new unit production responsibilities but also supply the necessary repair and replacement parts for units already in service. Our technical support staff on-site is second to none. We excel most in customer service and response.	
73	Describe advancements reflected in the equipment or products offered in your proposal, such as safety, longevity or life cycle cost measures.	We have a continuous improvement plan in place where, lead by a team of our own production and engineering staff, we continuously look for, and find, ways where we can improve product and/or process. This provides our customers the most advance product and ensures we are striving to keep our costs in check. In addition to existing products, we have tripled our engineering staff in the past 2 years with the intent of developing and releasing new products to market that further benefit our customers' need to collect and handle bulk waste.
